ISBN 978-93-8667-118-9

ISBN 978-93-8667-119-6

85 **RAINFOREST**

This chart illustrates the biodiversity of a rainforest. It features a central tree and is surrounded by numerous illustrations of animals such as monkeys, toucans, jaguars, and snakes. It also shows various types of plants and insects. Text boxes provide information about the rainforest's climate, its role in the ecosystem, and the importance of conservation.

ISBN 978-93-8667-120-2

86 **TREE OF LIFE**

This chart is a phylogenetic tree of life, showing the relationships between various organisms. It starts from a common ancestor at the base and branches out into different groups such as plants, animals, and fungi. Each branch is accompanied by representative illustrations of organisms from that group. Text boxes explain the principles of classification and the evolution of life.

ISBN 978-93-8667-121-9

87 **SEASHELLS**

This chart displays a wide variety of seashells. It shows different shapes, sizes, and colors, from small pebbles to large, intricate shells. Each shell is labeled with its name. Text boxes describe the structure of shells, how they are formed, and their uses in various cultures and industries.

ISBN 978-93-8667-122-6

88 **EARTH**

This chart provides a comprehensive overview of Earth. It shows the planet's layers, including the atmosphere, hydrosphere, and lithosphere. It also depicts the Earth's rotation, the water cycle, and various geographical features like mountains, rivers, and oceans. Text boxes explain the composition of the Earth and its position in the solar system.

ISBN 978-93-8667-123-3

89 **ROCKS AND MINERALS**

This chart shows a variety of rocks and minerals. It includes illustrations of igneous, sedimentary, and metamorphic rocks, along with different types of minerals. Text boxes describe the characteristics of each type, how they are formed, and their uses in industry and construction.

ISBN 978-93-8667-124-0

90 **GEMS**

This chart displays a collection of gemstones. It shows different colors, cuts, and shapes, such as diamonds, rubies, sapphires, and emeralds. Text boxes provide information about the properties of these stones, their historical significance, and how they are used in jewelry.

ISBN 978-93-8667-125-7

91 **CLIMATE AND WEATHER**

This chart explores the concepts of climate and weather. It shows different climate zones (tropical, temperate, polar) and weather patterns (clouds, rain, snow, wind). It includes diagrams of the greenhouse effect and the water cycle. Text boxes explain the factors that influence climate and weather.

ISBN 978-93-8667-126-4

92 **EXTREME WEATHER**

This chart focuses on extreme weather events and natural disasters. It shows illustrations of hurricanes, typhoons, earthquakes, tsunamis, and volcanic eruptions. Text boxes describe the causes of these events, their potential impacts, and ways to stay safe during such situations.

ISBN 978-93-8667-127-1

93 **CHEMISTRY**

This chart introduces the field of chemistry. It shows the periodic table of elements, chemical symbols, and various chemical reactions. It includes diagrams of atoms and molecules, and text boxes explaining basic chemical concepts like acids, bases, and the law of conservation of mass.

ISBN 978-93-8667-128-8

SCIENCE CHARTS

A Set of 50 Charts, Size 48 cm x 73 cm, Both Side Hard Lamination (Age Group 12-15)

Modern science and technology have changed our lives in many different ways. To make children as well as grown-ups aware of the importance of science in everyday life, we have tried to impart knowledge of science through a series of beautifully illustrated science charts.

1. Inventors & Their Inventions-1
2. Inventors & Their Inventions-2
3. Computer Technology
4. Electronics
5. Electricity
6. Cameras and Photography
7. Lenses and Mirrors
8. Light and Colour
9. Acids and Alkalies
10. Energy
11. Nuclear Energy and Radioactivity
12. Forces
13. Dynamics
14. Friction
15. Motion
16. Gravity
17. Pressure
18. Work & Simple Machines
